**WORKSHOP REPORT 2024**

## Seminar on Road Safety and Traffic Legislation – January 25, 2024

A seminar on Road Safety and Traffic Legislation was conducted by Traffic Police Chumoukedima to raise awareness about safe driving practices and traffic rules. The session aimed to educate students about the importance of road safety and responsible behavior on the roads.

The resource person, Ms. Medemkala Tzudir, ACP (Traffic), Chumoukedima, explained key provisions of the Motor Vehicles Act, 1988, and emphasized the need to strictly follow traffic regulations to prevent accidents and ensure public safety. She also highlighted common causes of road accidents and the precautions that individuals should take while driving or walking on roads.

Students were encouraged to adopt safe driving habits, such as wearing helmets and seat belts, obeying traffic signals, and avoiding reckless driving. The seminar helped instill a sense of responsibility among students and made them more aware of the consequences of violating traffic rules. The program was highly informative and played an important role in promoting road safety awareness and responsible citizenship.

## **Collaborative Workshop with National Institute of Technology and Innovation – March 5, 2024**

A collaborative workshop was conducted in association with the National Institute of Technology and Innovation, aimed at providing students with exposure to technical knowledge and innovative practices. The session served as a platform for students to engage with new ideas and gain insights into emerging technologies and methodologies.

The workshop emphasized the importance of innovation, critical thinking, and practical application of knowledge in today's rapidly evolving world. Through interactive discussions and demonstrations, students were encouraged to think creatively and approach problems with a solution-oriented mindset. The session also highlighted the significance of developing technical skills alongside academic learning to remain competitive in various fields. The workshop proved to be an enriching experience, helping students broaden their understanding of technology and innovation while motivating them to enhance their skills for future opportunities.

## Writing Workshop by Tim Tomlinson – June 10, 2024

A writing workshop was conducted by Tim Tomlinson, a renowned professor from New York University and an accomplished writer, known for his contributions to creative writing, poetry, and fiction. The session was designed to inspire and guide students in developing their writing abilities and exploring the art of storytelling. During the workshop, Tim Tomlinson shared his expertise in various forms of writing and provided valuable insights into the creative process. He discussed techniques for developing ideas, structuring narratives, and expressing thoughts effectively through words. His practical approach helped students understand the nuances of creative writing and the importance of imagination and originality. The session encouraged students to experiment with their writing styles and develop their unique voices. Through examples and discussions, they gained a deeper appreciation for literature and the creative arts. The interactive nature of the workshop allowed students to actively participate, ask questions, and receive guidance on improving their writing skills. The workshop was highly inspiring and intellectually stimulating, motivating students to pursue creative writing with confidence and passion while enhancing their literary skills.

## Oral Health Awareness Session – July 15, 2024

Dr. Vilhoukhono Neikha conducted an informative session on oral health, focusing on the importance of maintaining proper dental hygiene and adopting healthy oral care practices. The session aimed to create awareness among students about the significance of oral health as an essential part of overall well-being.

During the program, students were guided on effective techniques for maintaining dental hygiene, including regular brushing, proper flossing, and the importance of routine dental check-ups. The speaker also addressed common myths and misconceptions related to oral health, helping students understand the correct practices to follow for maintaining healthy teeth and gums.

The session proved to be highly informative, equipping students with practical knowledge and encouraging them to take better care of their oral health in their daily lives.

## Career Guidance Seminar by Emporium Institute – October 17, 2024

A career guidance seminar was conducted by the Emporium Institute, focusing on career opportunities in the hospitality, aviation, and cruise industries. The session aimed to provide students with valuable insights into these growing sectors and the skills required to succeed in them.

The speakers included industry experts such as Mr. Imsumeren Imsong, a hospitality trainer, and Miss Asheli Yephthomi, an aviation trainer, who shared their knowledge and experiences. They highlighted the roles, responsibilities, and career growth opportunities available in their respective fields, offering students a comprehensive understanding of these professions.

The session also encouraged interactive participation, allowing students to engage with the speakers, ask questions, and clarify their doubts regarding career options. This helped them gain a better understanding of the qualifications, training, and personal attributes required to pursue careers in these industries.

## Seminar on Music as a Career – October 24, 2024

A seminar was conducted by Shofar Music Academy to create awareness about career opportunities in the field of music. The session aimed to help students understand that music can be pursued not only as a passion but also as a viable and rewarding profession.

The speaker shared personal experiences and insights from the music industry, highlighting the various roles and opportunities available, such as performance, production, teaching, and composition. Through these real-life examples, students gained a clearer understanding of the effort, dedication, and creativity required to build a successful career in music.

The session also encouraged students to explore their musical talents and consider developing their skills further through formal training and practice. It opened new perspectives on creative career options and inspired students to think beyond conventional professions.
