

NORMAN PUTSURE COLLEGE

CHUMOUKEDIMA : NAGALAND

**SKILL CLASS REPORT
2022-2025**

Norman Putsure College has been actively promoting hands-on learning through its Skill Development Classes at the Sovima Campus. The college offers practical training in horticulture, floriculture, pisciculture, and organic farming, reflecting its commitment to equipping students with skills that complement their academic knowledge.

Skill Development Classes at Norman Putsure College are designed to provide students with hands-on training in various fields every semester, fostering a well-rounded education and enhancing employability.

Horticulture and Floriculture - 17th June 2022

Norman Putsure College's Skill Development Class held at the Sovima Campus focused on imparting essential skills in horticulture and floriculture to students. The session emphasized the importance of farming and equipped students with basic farming skills, laying the foundation for a hands-on learning experience. This initiative reflects the college's commitment to promoting sustainable practices and nurturing students abilities in cultivating and nurturing plants.

The training had a tangible outcome, as evident from the follow-up visit on September 27, 2022, where students were able to harvest and take home the cabbage they had planted earlier. This experience not only reinforced their understanding of horticulture but also instilled a sense of pride and accomplishment. The students got to clean the area, pick their own cabbage, and learn about the process of nurturing plants from seed to harvest.

Pisciculture - 4th April 2023

The 3rd-semester students of Norman Putsure College delved into the world of pisciculture, gaining hands-on experience in fish rearing and pond life. From fertilization to release, the students were involved in every aspect of the process, acquiring valuable skills in this vital field of aquaculture. This practical training is a testament to the college's emphasis on experiential learning. The students learned about pond preparation, fish breeding, and harvesting techniques, giving them a comprehensive understanding of the pisciculture industry.

Farming Skills - 20th May 2023

Second-semester students participated in a farming class at the Sovima Campus, cultivating skills for a brighter future. This session was part of the college's ongoing efforts to provide practical training and equip students with the skills necessary to succeed in various fields. The students learned about different farming techniques, crop management, and soil conservation, gaining a deeper understanding of the agricultural sector.

Organic Farming - 2nd December 2025

First-semester students gained valuable hands-on experience in organic farming at the Sovima Campus, learning techniques such as tilling, planting, and nurturing saplings. This session reinforced the college's "From Farm to Table" ethos, highlighting the importance of sustainable practices in agriculture. The students learned about the benefits of organic farming, including reduced environmental impact and improved crop quality.

Poultry Farm Visit - 13th March 2025

The 6th-semester students concluded their Skill Development Classes with a visit to a poultry farm at Vidima Village, gaining insights into the operations and management of poultry farms. This experience marked the culmination of their practical training and highlighted the college's focus on providing industry exposure to its students. The students learned about poultry breeding, feeding, and disease management, and saw firsthand the importance of bio-security measures in poultry farming
